

The University of Texas M.D. Anderson Cancer Center  
Department of Investigational Cancer Therapeutics  
1400 Holcombe Blvd Unit 455  
Houston, TX 77030

To whom it may concern:

The ICT/CCTT leadership have recently met to prepare for any contingencies that may arise from the COVID19 outbreak. Although there are no confirmed cases in Texas or Houston we believe it is prudent to begin preparing for the event that outbreaks could occur in Houston and the Texas Medical Center. The institution has set strict criteria on travel and visitors and in the spirit of these restrictions we have cancelled all outside visits to the CCTT and CTRC. We are also encouraging all Site Initiation Visits and Routine Monitor Visits be conducted remotely if possible. If not possible, we will continue the Site Initiation Visits and Routine Monitor Visits as planned.

Please reach out to your assigned Research Data Coordinator to discuss transitioning your upcoming Routine Monitor Visits from on-site to remote.

Please feel free to contact the Research Data Supervisor Team with all questions and concerns. We appreciate your continued support and flexibility during this time.
